Cancer Control Joint Action
WORK-PACKAGE 6
INTEGRATED CANCER CONTROL

Workshop
Review and revision
of the WP6 chapter
&
Symposium on
Improving cancer care
through cancer networks:
existing models in Italy
and in Europe

Florence, 21-22 April 2016

The *Istituto Toscano Tumori*, on behalf of the Tuscany Region, is the leader of the Work Package 6 (WP6) of the European Joint Action *CANCON* (Cancer Control). WP6 is focused on optimizing Cancer Care Networks.

During this 2-day meeting we will aim to share, in the heart of Florence, a range of experiences in the management of cancer care. Day 1 will be a regular European Working Group Workshop involving all WP6 Partners (Italy, Ireland, Germany, France, Czech Republic and Slovenia): plus a Guest Lecture by Professor Peter SELBY from UK.

Day 2 will offer an opportunity for several speakers to share with the audience a variety of experiences in cancer networks already in existence in various regions of Italy and elsewhere in Europe.

April 21, 2016

9.00 Welcome

Enrico Rossi, *Presidente della Regione Toscana*

9.15 Introduction

Lucio Luzzatto, *Dar es Salaam*

9.30 Guest Lecture:

Comprehensive Cancer Networks and Cancer Research Networks in the UK

Peter Selby, *Leeds*
